

# Empty Coffee Drip Bags

Heat Sealable Empty Coffee Drip Bags for Manual Filling & Sealing

Product Video at

**DB9074** from TEQNOVO - Empty Coffee Drip Bags are made using a non-toxic, non-florescent brightened nonwoven filter mesh media. The TEQNOVO Empty Coffee Drip Bags come with paper hangers on both sides that fit most cups, mugs, bottles. Simply place the amount of coffee that is required in the empty Coffee Drip Bag and then seal it with the help of any hand or pedal/foot operated impulse sealer. Insert individual or a set quantity of filled Dip Coffee Bags in an outer envelope to seal-in the aroma . No other machine is required except a good weighing scale to fill only the correct quantity each time. Originally devised in Japan, it is now the latest mode of enjoying good coffee without using any machine or capsules.
